

VitrA

Smart solutions

VitroA

We progressively invest in essentially
human spaces - the bathrooms.

The complete bathroom

Exploring physical and emotional needs, Vitra invests in design to produce every essential element in the bathroom.

It's all about inspiration

It all begins with questions posed by the design discipline to understand needs, desires and choices. Designed by Vitra, an extraordinary wealth of attractive combinations help satisfy these needs and desires.

High powered perfection

Seven cutting-edge factories and plants in Turkey and Russia, create sophisticated designs and maintain extremely high standards, whilst progressively reducing Vitra's ecological footprint.

Collaboration with designers

Vitra works with acclaimed industrial designers from around the world. Not only does the collaboration with these top talents improve product functionality, but it also introduces an entirely original range.

Vitra across the world

Bathroom designs greet customers around the world through 2000 sales points in over 75 countries, including 150 exclusive Vitra showrooms in Istanbul, London, Cologne, Moscow, Dubai, Mumbai, Delhi, and other major cities.

Technology lights up the future

The Vitra Innovation Centre serves as the headquarters of the brand's R&D activities with a strong engineering team, leading the bathroom industry with new solutions and technologies.

Improved personal hygiene

Vitra's continuous research into human health introduces new technologies for improved hygiene in the bathroom. These solutions raise the personal hygiene experience to a new level.

A pledge to the future

Vitra embraces Blue Life, a set of guidelines devised to mitigate our impact on the environment, and is held as a production, design and management philosophy.

V-Box

V-Box integrates design and functionality

VitrA designers and engineers always strive to design smarter and to provide sustainable solutions to connect you with your bathroom products.

One of these solutions is V-Box with its innovative concealed design, that combines intelligent technology with aesthetics.

Multi-fit

Technology that suits every taste

V-Box provides more space for you in the shower by concealing the control unit in the wall. It is compatible with all concealed Vitra bath and shower mixers for a flawless operation.

Once installed, you can quickly revamp or retrofit your bathroom to a new colour way, or design without the need of accessing the valve behind the wall.

Minimum effort, maximum comfort

V-Box comes with two outlets as standard for an overhead and hand shower. However, when used in conjunction with a compatible diverter you can have up to four water outlets.

Designs that suit your tastes

Because Vitra V-Box is compatible with all of the concealed mechanical, thermostatic and AquaControl mixers, you are free to choose a design that fits with your chosen aesthetic.

Technology that makes life in the bathroom more convenient: V-Box

- It allows for installation in brick walls with a minimum depth of 77 mm thanks to its brick-fit feature.
- It can tolerate installation errors of up to 7 degrees.
- Thanks to the innovative design, V-Box can be quickly and easily installed into concrete walls.
- Maintenance of the V-Box does not require access to the body of the valve, making it quick and easy.
- It has a leak-proof body.
- The humidity protection of V-Box is reinforced by an additional water seal to ensure extra water protection.
- V-Box provides the opportunity to choose among different options.
- V-Box is silently operated, ensuring disruption is kept to a minimum.

installation

Easy installation

VitrA V-Box allows you to correct possible errors with post-installation adjustment of up to 7 degrees.

V-Box has an installation depth of 77 mm and can be installed in concrete and brick walls. Instead of an apparatus for emptying the water, it has a test apparatus for cleaning the entire fitting, and installation is facilitated because it is possible to check for leaks.

A range of colour alternatives

VitrA's V-Box compatible bath/shower mixers are available in a range of colours and finishes, so the choice is yours. Choose from chrome, gold, copper, brushed nickel or matt black.

AquaControl

The smart button that makes life easier

The AquaControl concealed mixers make it easy to control your showering system, with a simple push of a button. It offers a comfortable and pleasurable shower experience with water that comes from both the hand shower and the showerhead, at the same time.

Comfort
control

Vitra

38°

Effortless shower experience

You are always in control in the shower, even with your eyes closed, thanks to the indicator button that diverts the water to the shower head of your choosing.

When you push a function button, it will pop out, so you know which setting it is in. Therefore, even if your eyes are closed due to shampoo foam, you can easily find the AquaControl's diverter.

Blind sight

Enjoy your shower with constant water temperature

The thermostatic mixer has been developed to ensure constant water temperature - for a more pleasurable showering experience. The technology controls fluctuations in water pressure and temperature to ensure your shower experience is uninterrupted.
